FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2012

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of RENHENG Enterprise Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. 8. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share for both periods is based on the following data:

	For the three months ended 31 March	
	2012 HK\$'000 (Unaudited)	2011 HK\$'000 (Unaudited)

The computation of diluted earnings per share for the three months ended 31 March 2012 has not assumed the exercise of the Company's share options because the adjusted exercise price of the share options (after the adjustment of the fair value of the unvested share options) were higher than the average market prices of those shares for the outstanding period during the three months ended 31 March 2012.

No diluted earnings per share was presented as there was no potential ordinary share during the three months ended 31 March 2011.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group is principally engaged in the manufacture, sale and provision of maintenance, overhaul and modification services in respect of tobacco machinery products in the PRC.

FINANCIAL REVIEW

For the three months ended 31 March 2012, turnover amounted to approximately HK\$16,477,000 (three months ended 31 March 2011: approximately HK\$23,233,000), representing a decrease of approximately 29.1% as compared to the corresponding period last year. Such drop was principally due to the recognition of considerable revenue relating to a project in Kunming in providing a brand new casing and flavouring system to a customer in 2011. Nevertheless, the Group has attained an improved gross profit margin of 41.3% during the period under review, as compared to 38.8% in the corresponding period in 2011, and recorded a gross profit of approximately HK\$6,811,000 (three months ended 31 March 2011: approximately HK\$9,019,000).

Operating expenditure of the Group, comprising the selling and distribution costs and administrative expenses, amounted to approximately HK\$4,933,000 (three months ended 31 March 2011: approximately HK\$6,898,000), representing a drop of approximately 28.5% as compared with that for the corresponding period last year. The savings were mainly attributable to the strengthened cost management as laid down ahead. Net profit attributable to shareholders for the three months ended 31 March 2012 decreased to approximately HK\$527,000 (three months ended 31 March 2011: approximately HK\$1,040,000).

BUSINESS REVIEW

During the period under review, the overall tobacco machinery industry in the PRC remained competitive. To meet the challenge, the Group has planned and pursues its focuses on (i) system customization to customers with high product quality; (ii) product development and innovation; and (iii) increasing market penetration so as to gain the leading role status in the tobacco machinery industry in the PRC.

Backed by our experienced and robust technical personnel, our sales and marketing team continued to interact with our customers in the PRC, comprising the cigarette manufacturers and tobacco redrying factories, and identify potential projects. During the quarter, our team members devoted their utmost effort to respective on-going projects in delivering casing and flavouring systems to our customers in Hunan, Chongqing and Guangxi, all valuing over RMB10 million individually in their contract sum. We underwent both the product manufacture and technical modification as requested by customers. Following the current agreed schedule, these projects are anticipated to be completed within this year.

At the same time, we have completed a considerable project in supplying dedusting systems, a non-catalogued ancillary tobacco machinery product, to a cigarette manufacturer in Guizhou. As a result, owing to our business conducting on a project by project basis, the Group has a relatively low contribution in turnover by our primary three types of catalogued special-purpose tobacco machinery products, namely the casing and flavouring systems, pneumatic feeding systems and pre-pressing packing machines, for the quarter under review as compared with the corresponding period last year.

New product design has been progressing satisfactorily. In the quarter, the Group has worked hard on the development of new products, namely the new PP system (pre-pressing packing machine) and the new casing and flavouring system. We strived to bring along extended range of special-purpose tobacco machinery products to our customers in short future, with a view to uplift our revenue and return to our shareholders.
